Profile

Offers progressive experience from concept and design through testing, implementation and client updates. Diligent about producing exceptionally clean, strong and secure code.

Professional Experience

2024/06 – present Ogbomoso, Nigeria	**Front-End Intern** *Cephas ICT HUB* • Participated in code reviews, contributing to the improvement of project quality and team standards. • Engaged with the design team to translate visual concepts into functional web components. • Developed responsive website layouts, improving user experience across various devices and browsers. • Tailored user interfaces to client specifications, delivering customised and user-friendly web solutions. • Assisted in the development of single-page applications SPAs using React, improving app performance and user experience. • Collaborated with senior developers to implement design specifications into functional web pages.

Education

2017/08 – 2021/05 Ogbomoso, Nigeria	**A Level** *Oyo State School of Science*
2014/07 – 2017/08 Ogbomoso, Nigeria	**A Level** *Ansarudeen Secondary School College*

Projects

2024/06 – present	**E-commerce Web App** • **Frontend Development:** Built a responsive user interface with React and TailwindCSS, implementing dynamic components such as a product carousel and a streamlined checkout process combining address entry and order confirmation. • **State Management:** Utilized Redux Toolkit to handle global state, ensuring efficient cart management with actions for adding, updating, and removing items.

- **Backend Architecture:** Designed RESTful APIs using Node.js, Express, and MongoDB, with schema validation via Mongoose. Implemented efficient data operations, including $pull for cart item removal and aggregation with aggregatePaginate for paginated product listings.
- **Checkout Workflow:** Engineered a robust, single-page checkout system to enhance user experience, supporting seamless transitions between address entry and order review.
- **Scalability and Security:** Structured APIs for high availability, secure transactions, and scalability to accommodate large user traffic.
- **Mobile Optimization:** Ensured full responsiveness and usability on mobile devices, addressing issues such as table shrinkage and layout alignment.
- **Feature Enhancements:** Added functionality for dynamic event-driven interactions, such as displaying messages for missing items during searches and integrating role-based routing for secure user access.

Tech Stack: React, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, TailwindCSS, REST APIs
